ALLES MIT SPANNUNG

CONFIRMATION
REACH CONFORMITY

Issued by:
Wöhner GmbH & Co. KG
Mönchrödener Str. 10
96472 Rödental, Germany

The REACH Regulation (EC) No. 1907/2006 came into force on June 1, 2007. Its aim is to ensure that all substances produced and used in the EU have no negative impact on health and the environment.

Our products are “articles” as defined under the REACH Regulation. The obligation to provide information pursuant to Article 33 on substances in articles only applies to so-called substances of very high concern that meet the criteria of Article 57. We are in constant contact with our suppliers regarding substances subject to registration, have informed them of their pre-registration obligations, and will forward REACH-relevant information to our customers immediately if necessary.

According to current knowledge, Wöhner supplies articles that contain substances listed in Annex XVII Candidate List (SVHC list) issued by ECHA on September 18, 2025 (250 substances) in a concentration above 0.1% by weight. These are:

2-(2H-Benzotriazol-2-yl)-4-(1,1,3,3-tetramethylbutyl)phenol - CAS: 3147-75-9
Decamethylcyclopentasiloxane - CAS: 541-02-6
Diboron trioxide - CAS: 1303-86-1
Diphenyl(2,4,6-trimethylbenzoyl)phosphine oxide - CAS: 75980-60-8
Dodecamethylcyclohexasiloxane - CAS: 540-97-6
Hexahydromethylphthalic anhydride CAS: 25550-51-0
Lead - CAS: 7439-92-1
Lead monoxide - CAS: 1317-36-8
Octamethylcyclotetrasiloxane - CAS: 556-67-2

Please note:
This certificate refers to the production status of the mentioned products at the time of issue. It is based on a design evaluation respecting the valid standards. It is also based on our experience with similar products. The rated values are valid for one single device in free air. In accordance with the exact application conditions, system-dependent reduction factors shall be provided. For the use of our products DIN EN 61439-1 is to be applied in the currently valid version. Furthermore, the indications in our product manual are to be observed. A test regarding the exact conditions of use would need to be ordered specially. This certificate will not be updated after future changes in design or technology.
